

STEAM evening for parents

The preschool „Žibutė“ organized a STEAM evening for parents, where various STEAM activities were presented and parents were introduced to the importance of STEAM education for children.

Parents were invited to the school where the STEAM evening was held. Various STEAM activities were presented "Flight to the stars", "Sounding water", "I create animation", "Binary codes", "Bakers", "Rolling ship", "Sail, ship, blown by the wind", "Funny smiley", " Floral tablecloth", "Health plate", "Hot picture". Parents could familiarize themselves with the educational process, understand how useful this education is for children. Parents do not yet know much about this education, so they were interested in participating in various activities. Teachers had the opportunity to tell more about the educational process, to involve parents in it.
